# PBS KIDS FAMILY & Community Learning

PBS KIDS Family & Community Learning workshops aim to foster collaboration, communication and problem-solving skills among families. Workshops build grown-ups' confidence and comfort so that they can support their children's learning in science and literacy.

Here's how to find these FREE resources!

Visit pbslearningmedia.org

Search for **Ready to Learn 2015-2020 Initiative**

Select **Educator Resources**

Family Engagement Resources
family activity plans • facilitator support materials • video clips • digital games take-home supports • and more!
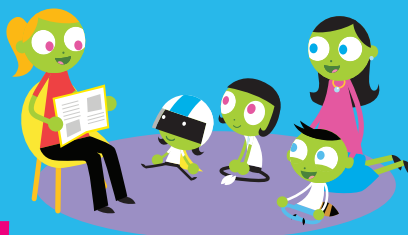

PBS KIDS Out-Of-School Resources

Science & Literacy Development for Out-of School Programs
camps • activity plans • and more!

PBS KIDS FAMILY & Community Learning

PBS KIDS Family & Community Learning is:

- **A standards-based series of workshops that engage families and children (ages 3-8) in hands-on learning utilizing PBS KIDS media**

- **Adaptable to various contexts and designed to support the development of science inquiry, engineering design practices and informational text skills among young children**

Inspired by a model developed by Ricarose Roque, PhD at the MIT Media Lab. Learn more online at **family.media.mit.edu.**

Supported by Ready To Learn family engagement research from EDC/SRI on *What Parents Talk About When They Talk About Learning.* To access the suite of research and evaluation conducted on Ready to Learn-developed PBS KIDS content, please visit **www.edc.org/ready-learn.**

This PBS KIDS content is funded by the CPB-PBS Ready To Learn Initiative and introduces young children to key science, literacy and math concepts to help prepare them for school while boosting their long-term educational opportunities.
