

Do you have a dog? I do and her name Rose. She is really playful. I have had her for two years. Rose is really soft to pet.

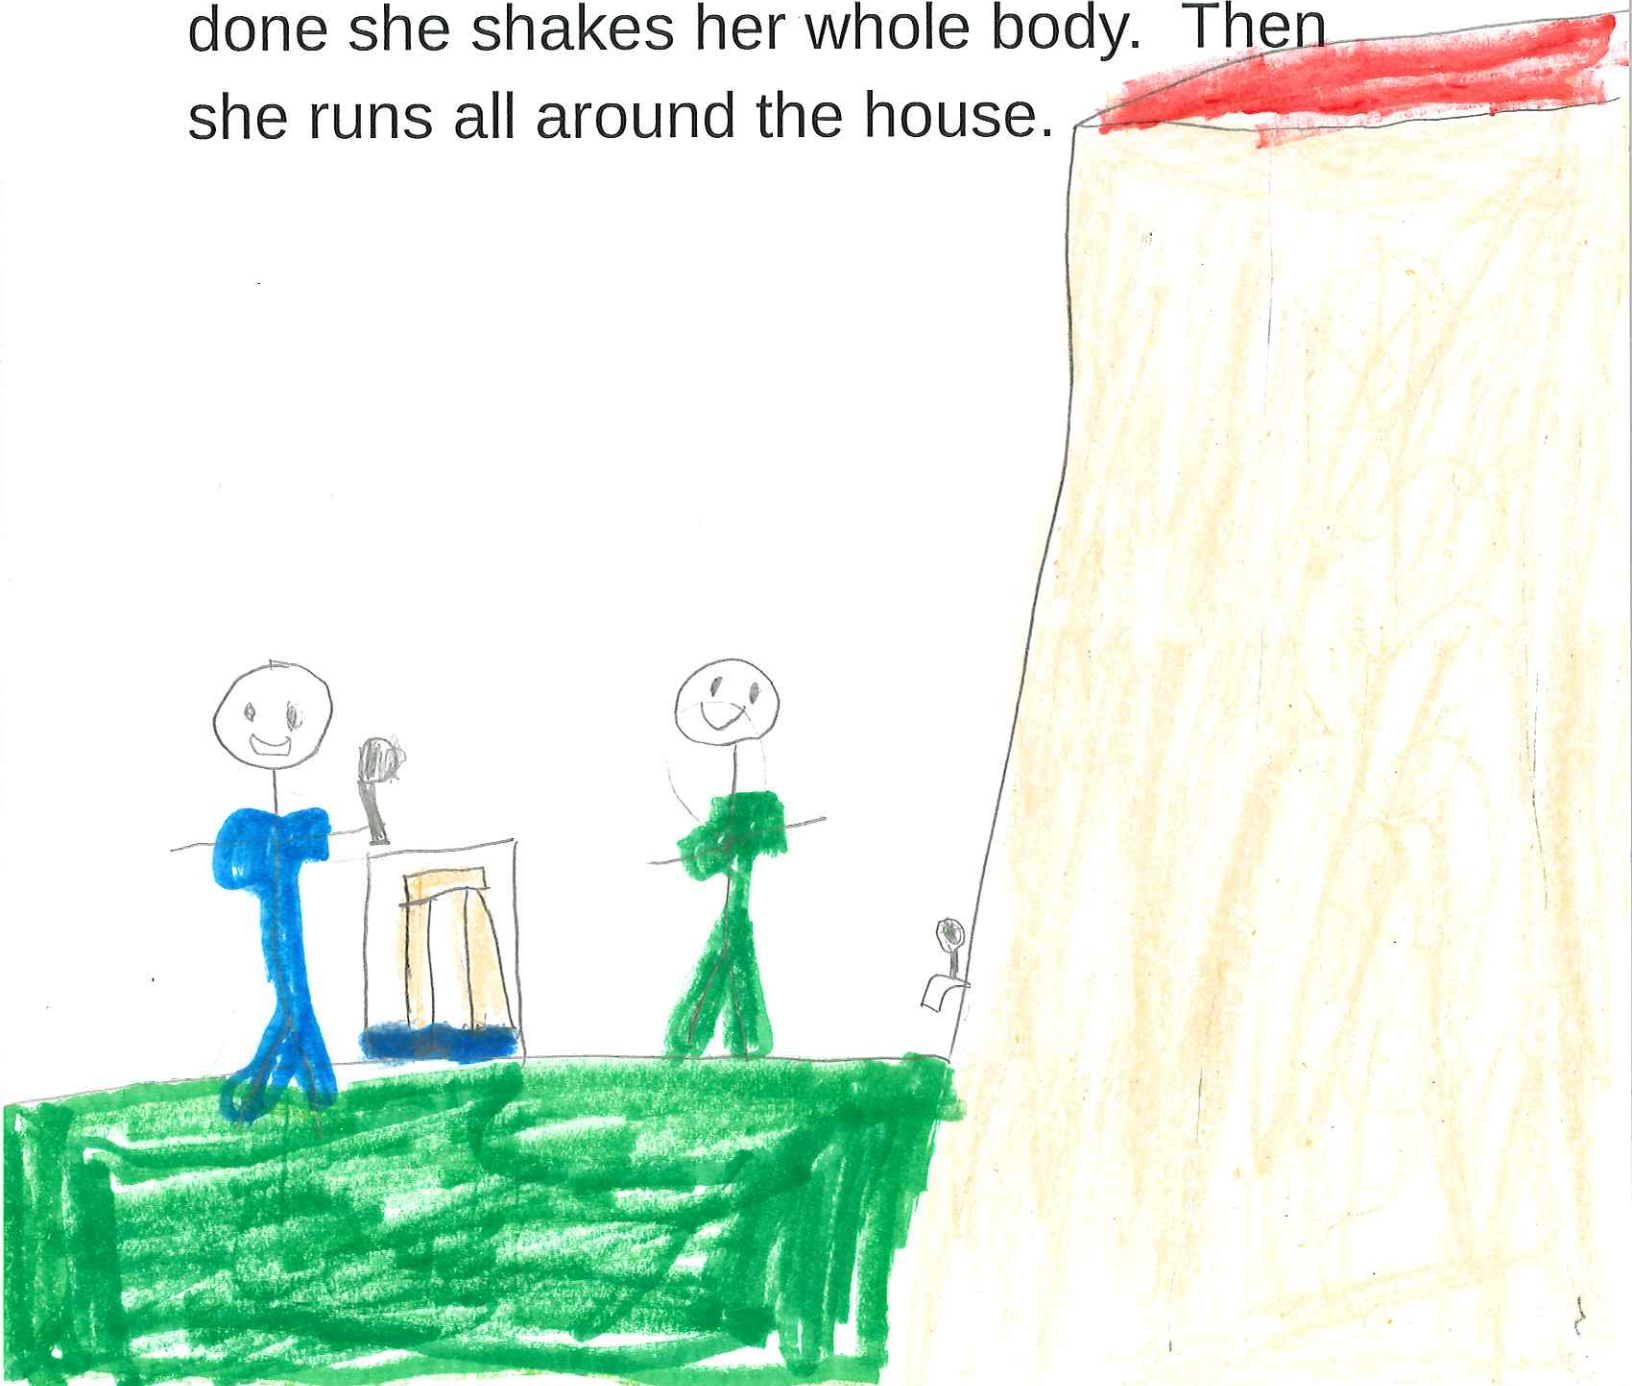

We take her for walks around the block.
We have to give her baths. She doesn't
like it.

We have to take our hose and do it outside. We put her in a tub that she can't jump out of. It takes me and my brother and my dad to give her a bath.

We put the soap on the scrubber and then we have to scrub. She tries to move so we can't do it. Then we take the hose and have to wash all the soap off. After she is done she shakes her whole body. Then she runs all around the house.

We are all tired and wet but Rose is soft again.
