

We're in this Together!

A Covid Story

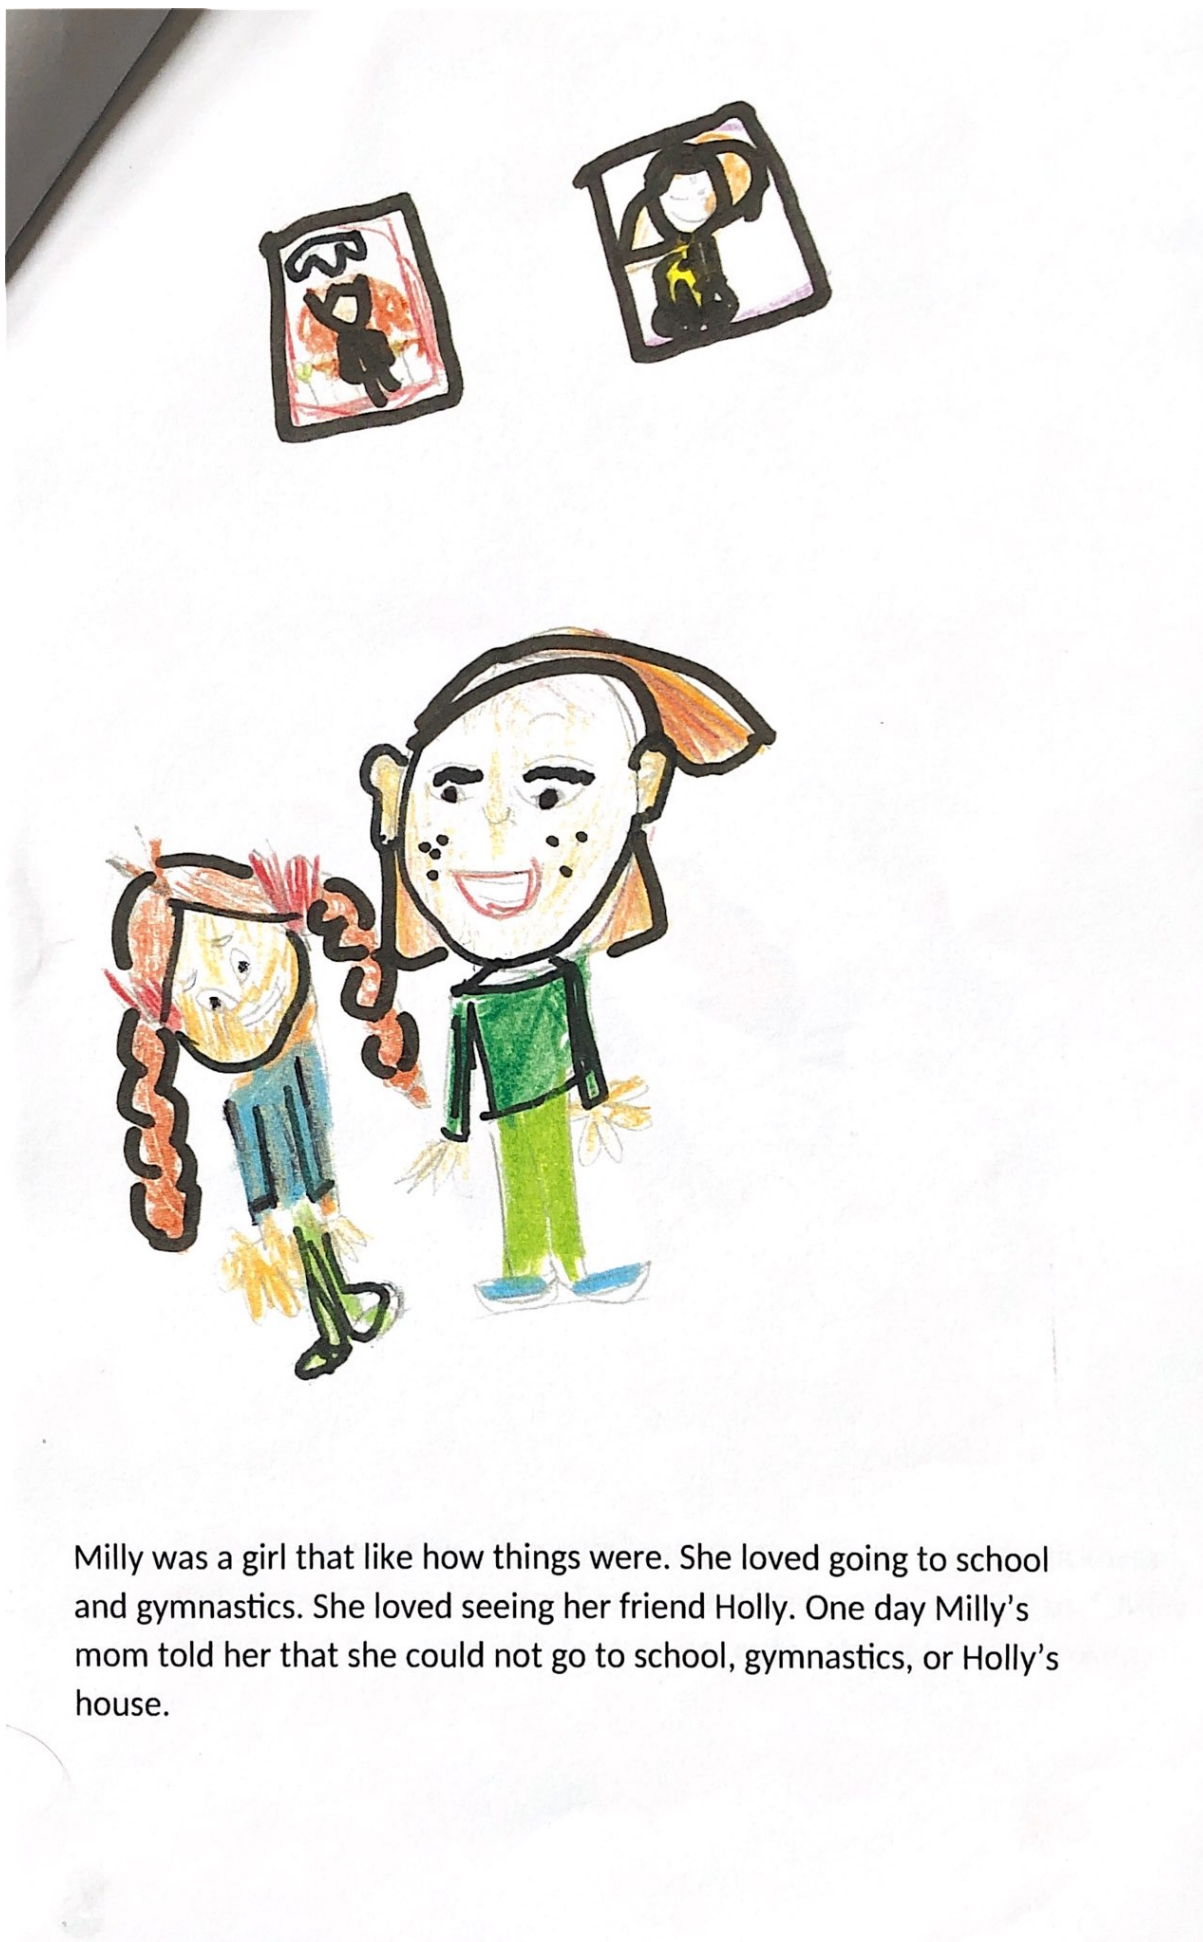

By Kennedy Claire Hillman

Dedicated to All the Children in the World.

We Got This.

Milly was a girl that like how things were. She loved going to school and gymnastics. She loved seeing her friend Holly. One day Milly's mom told her that she could not go to school, gymnastics, or Holly's house.

"Why?" asked Milly. "Because" said mom. "There is a new sickness called covid-19 and staying home is the best way to protect us." Milly stormed to her room with tears in her eyes. Her heart was broken.

Then one day Grandma called and Milly told Grandma all about how upset she was. Then Grandma spoke in a soft voice and said "We're both upset but we're in this together" This comforted Milly because she knew she wasn't the only one upset by covid-19.

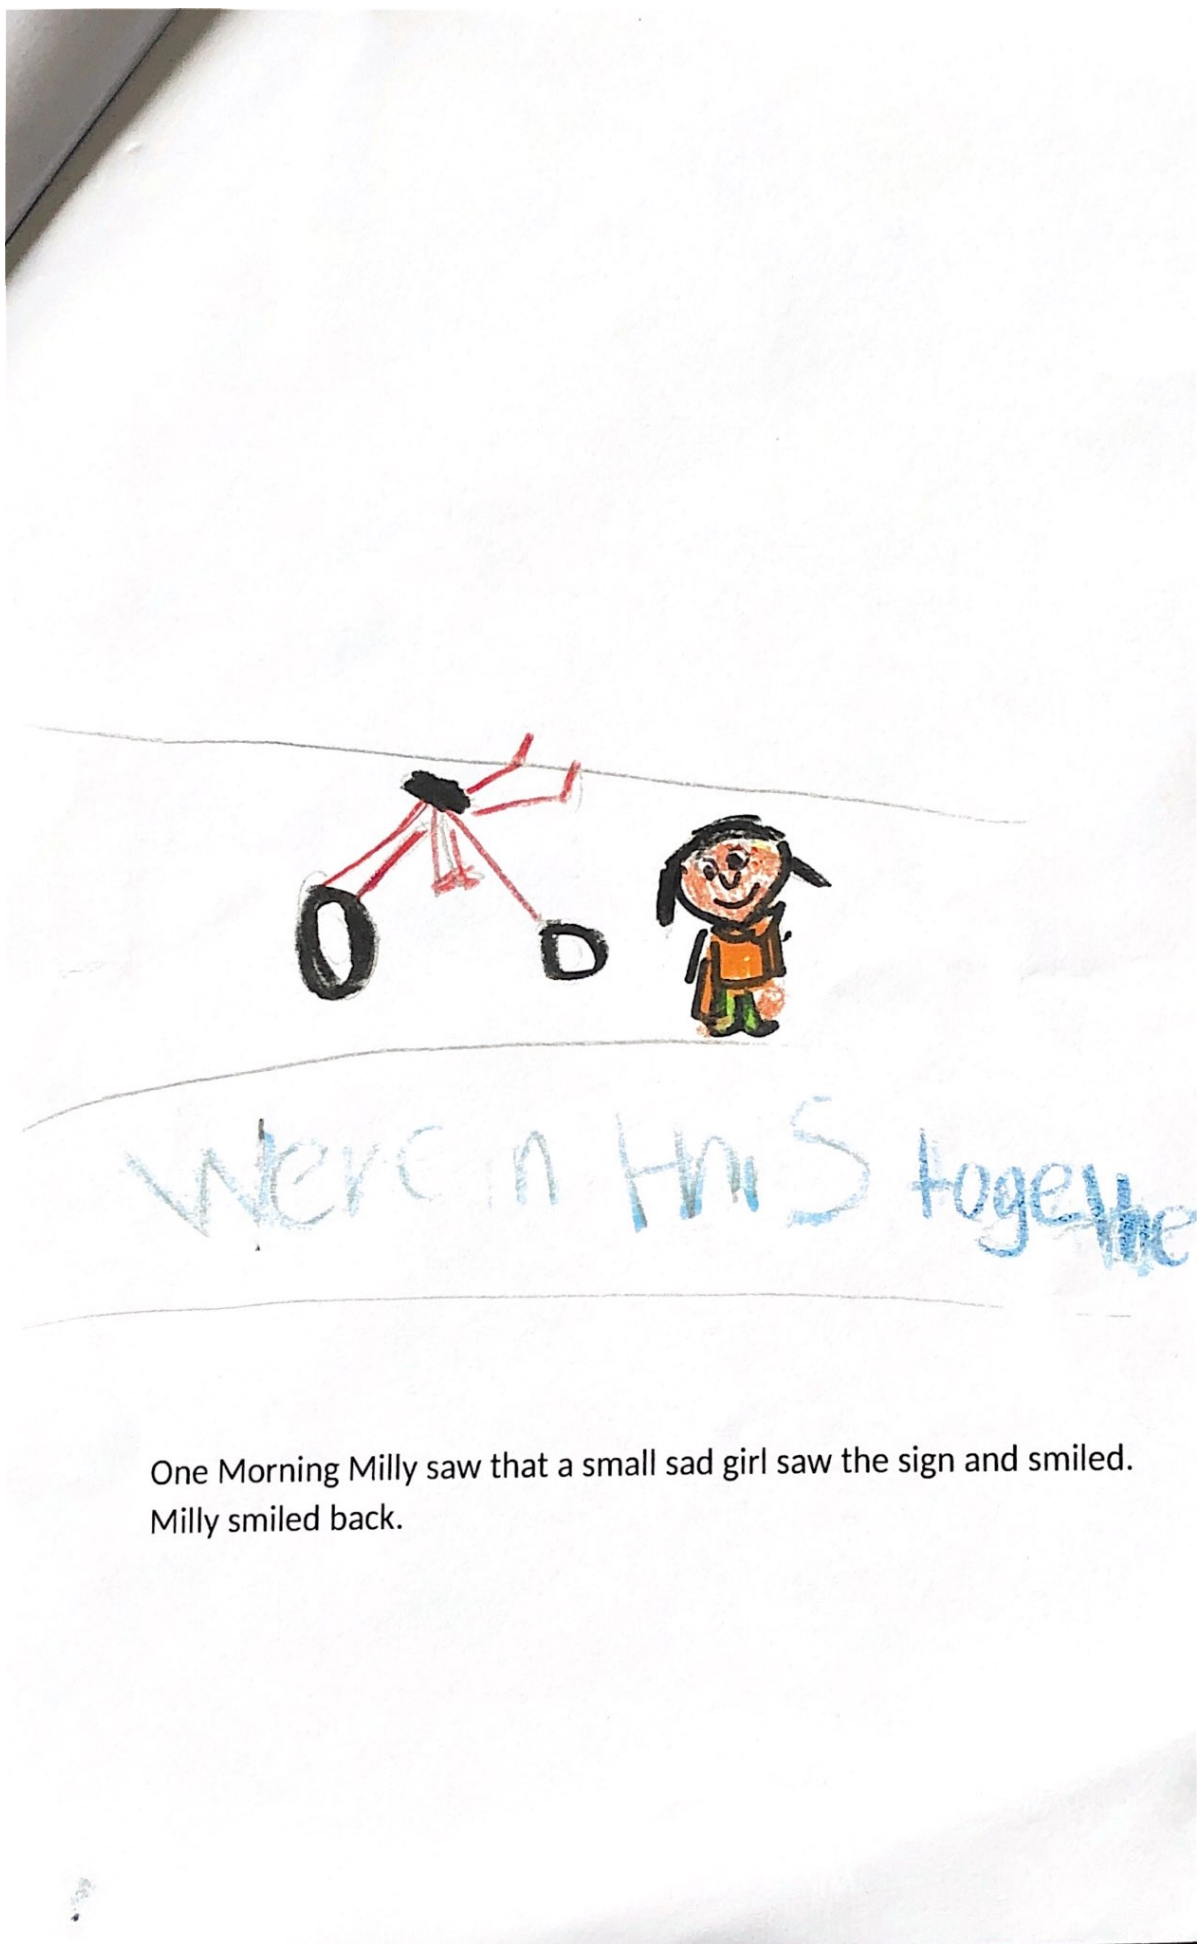

Milly was inspired to help others feel comforted. She ran outside with chalk in her hand. She wrote a sign on the ground and it said...

Were in this
together!

We're in this Together!

One Morning Milly saw that a small sad girl saw the sign and smiled.
Milly smiled back.
