

David's Ninja Adventures

Book
1

The Evil Robot

By Daniel Christofferson

Once there was a boy named Daniel. He loved ninjas and wanted to be one when he grew up. When he was seven years old, he went to a ninja school. He loved practising his ninja skills there. At home, Daniel would practice fighting bad guys. One Christmas, he even got a robot with two arms, six wheels, and a lot of spikes to help him practice fighting. One night before Daniel's 12th birthday, he heard a noise in his basement! He grabbed his ninja suit and slipped it on. On his way down, he grabbed his green poison sword. When he got to the top of the stairs, he looked down. Then he saw it! Two giant, evil, red eyes glared up at him! Daniel was not scared, he ran down the stairs and flicked on the lights!

It was Daniel's robot! It had malfunctioned in the middle of the night, and now it had grabbed two swords and was ready to fight!

Suddenly, Daniel's ten year old sister ran down stairs. She had her blue ninja suit on, & was clutching her lightning sword tightly. She was the ninja of lightning! Then they circled the robot & charged at it with their swords. The robot zoomed out of the way. Then it turned around & charged at Daniel. Daniel was ready. He back-flipped out of the way & the robot slammed into the wall. Then, they jumped on to

the robot but it bucked them off and ran at Nora! Nora was ready. She aimed her sword and chopped off the robot's head! Daniel jumped on to the robot and together, they chopped the robot into pieces! "The robot is defeated!" Daniel exclaimed.

The next day, was Daniel's birthday. After breakfast, he opened his presents. The last two gifts had silver wrapping paper and a golden ninja on the seal. He carefully opened the packages to reveal two golden swords with dragons on them. "Look, a note!" exclaimed Nora. The note read "You have passed the

first test. Use these weapons carefully. "First test!?"
thought Daniel, "how many more are there?!"
