Ninja Knights

By Oliver

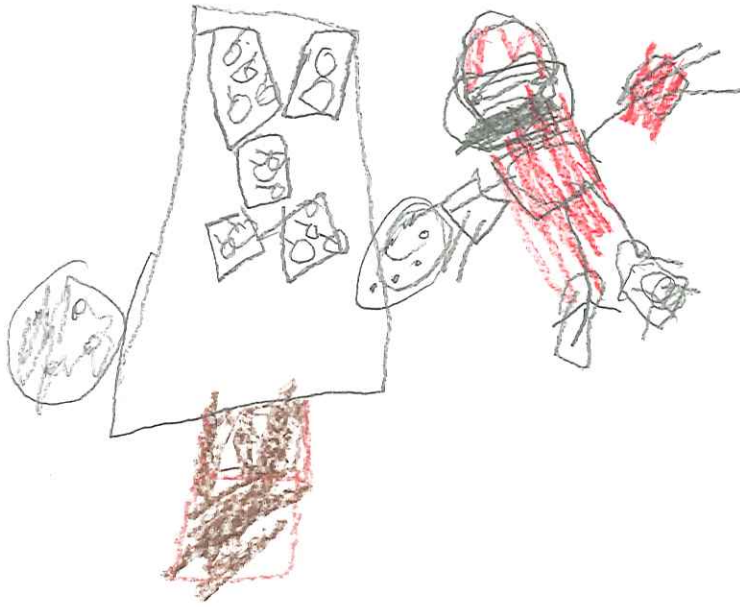

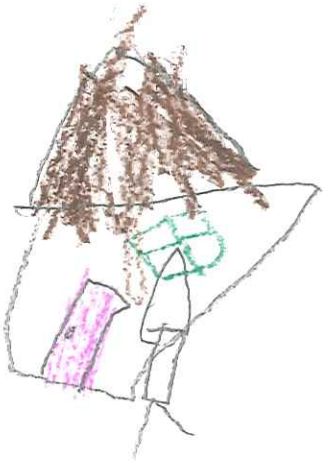

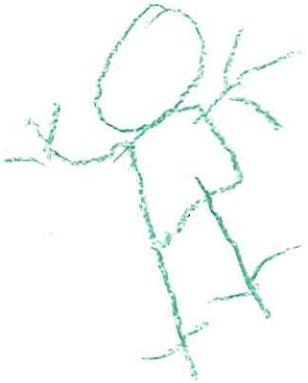

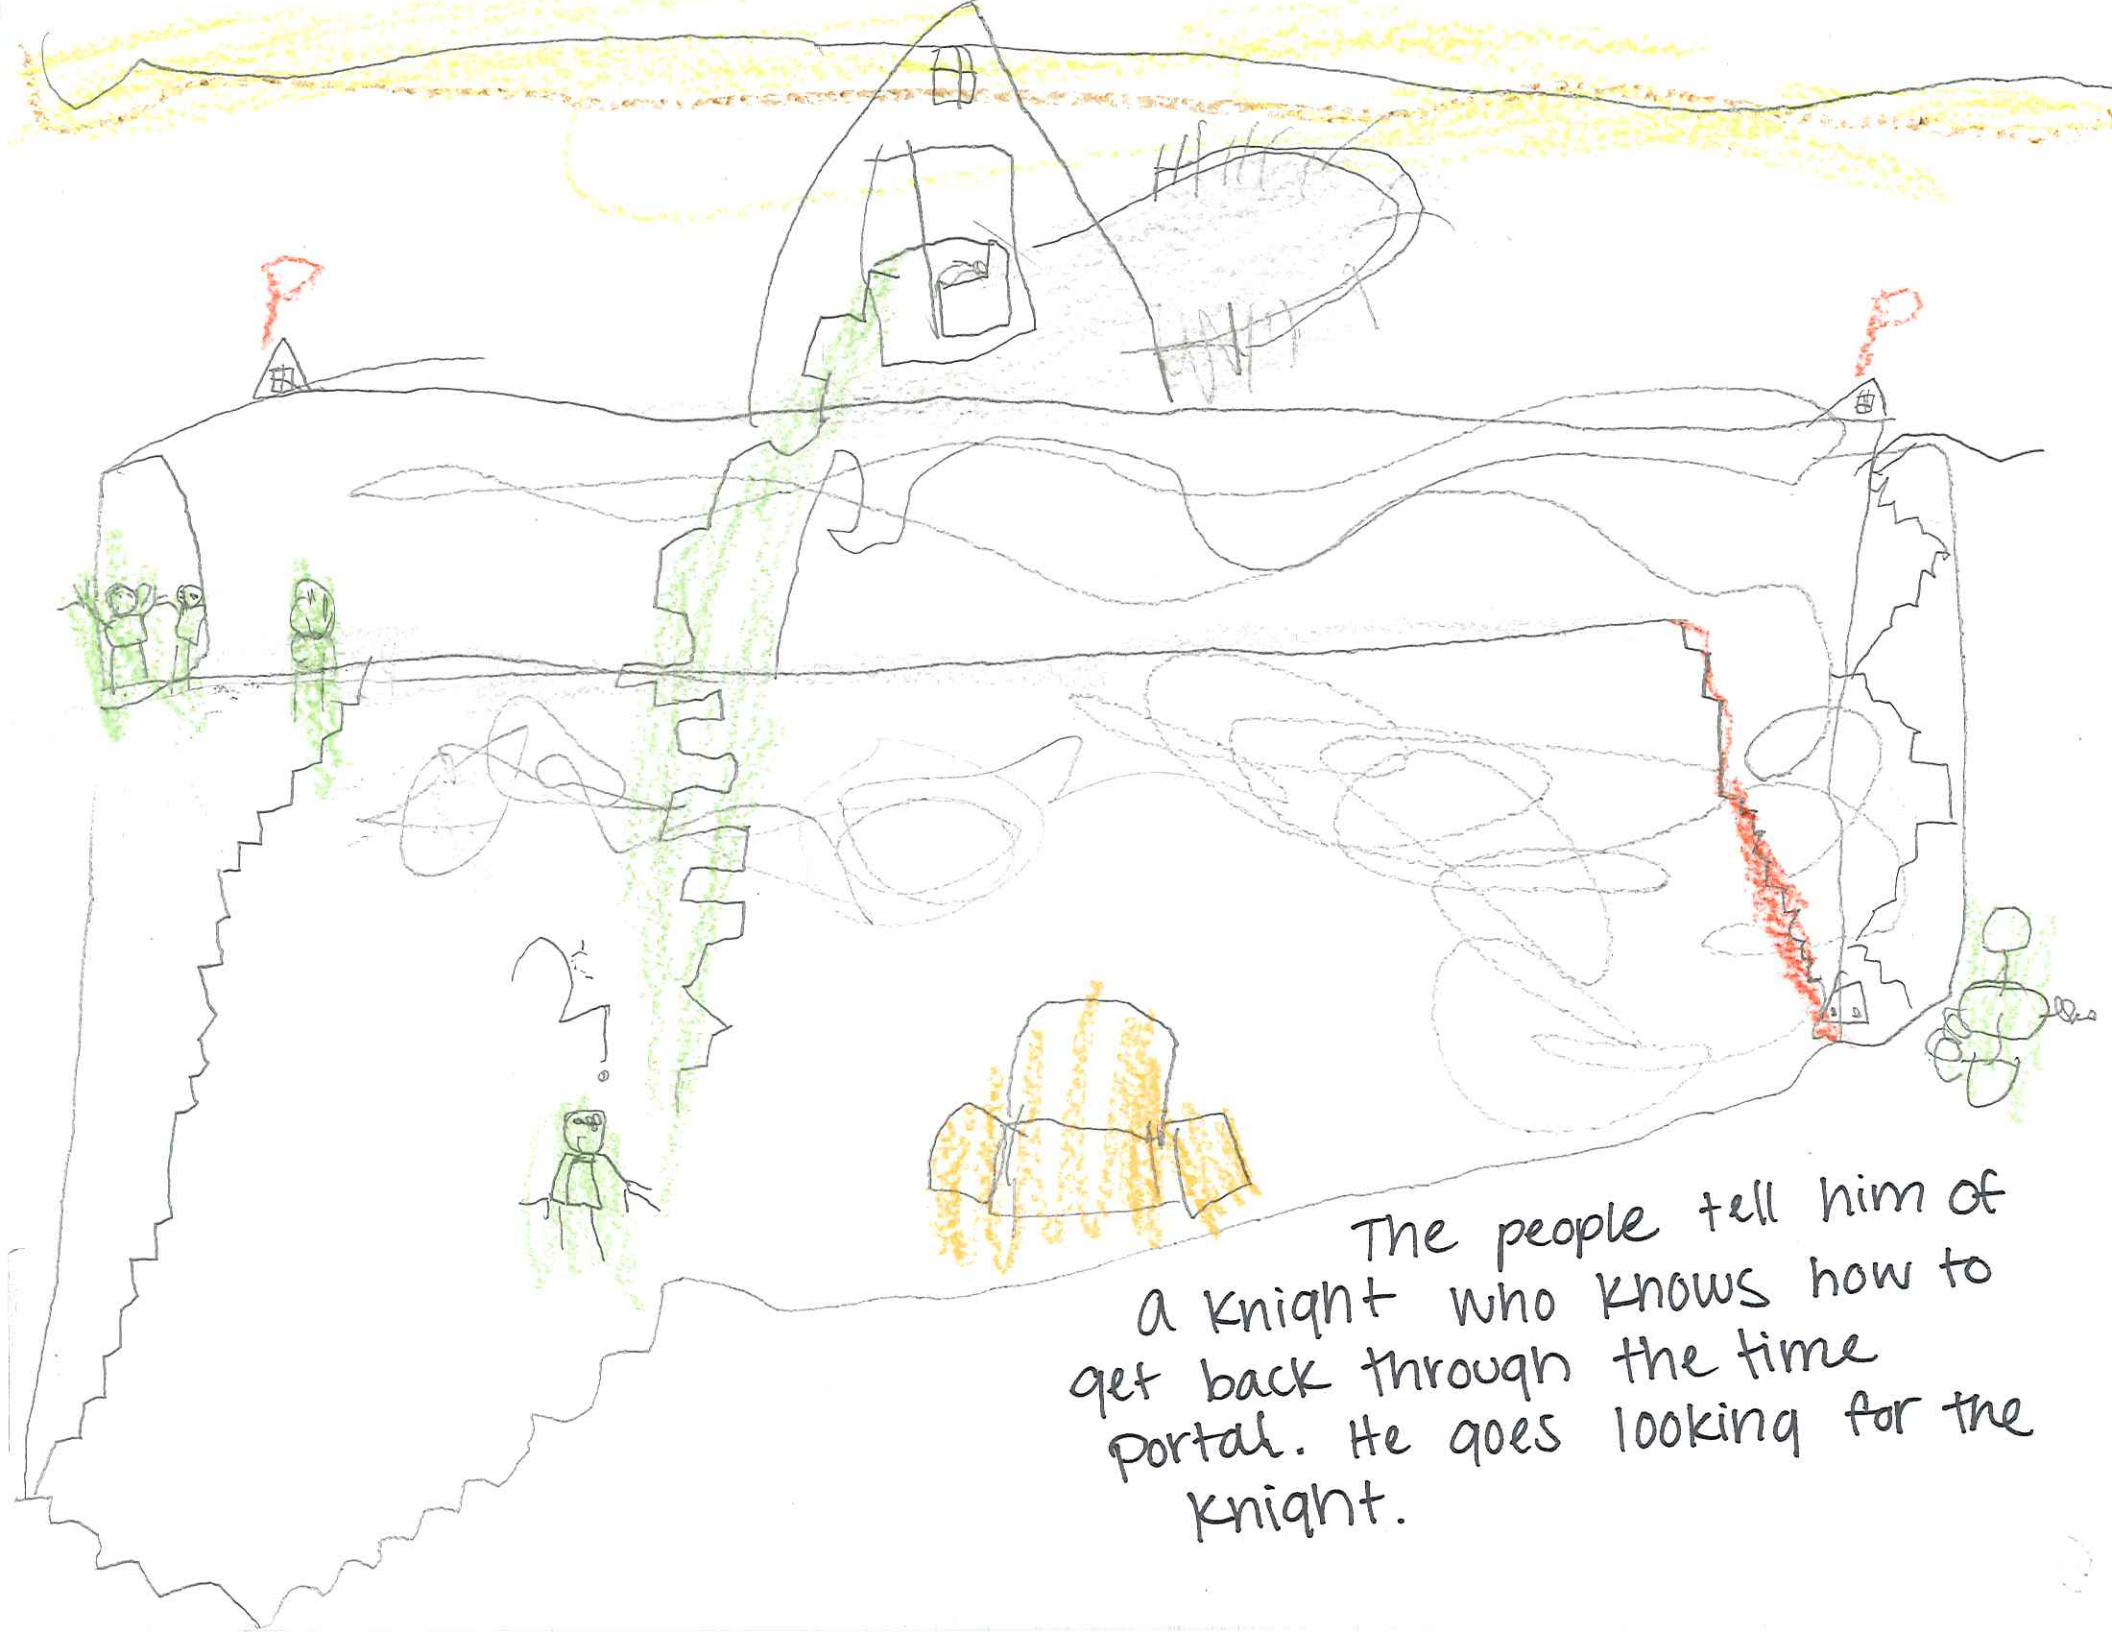

This is Ryan the ninja. He always works alone. One day he was fighting another ninja in the mountains and he accidentally fell into.....

a time
portal!

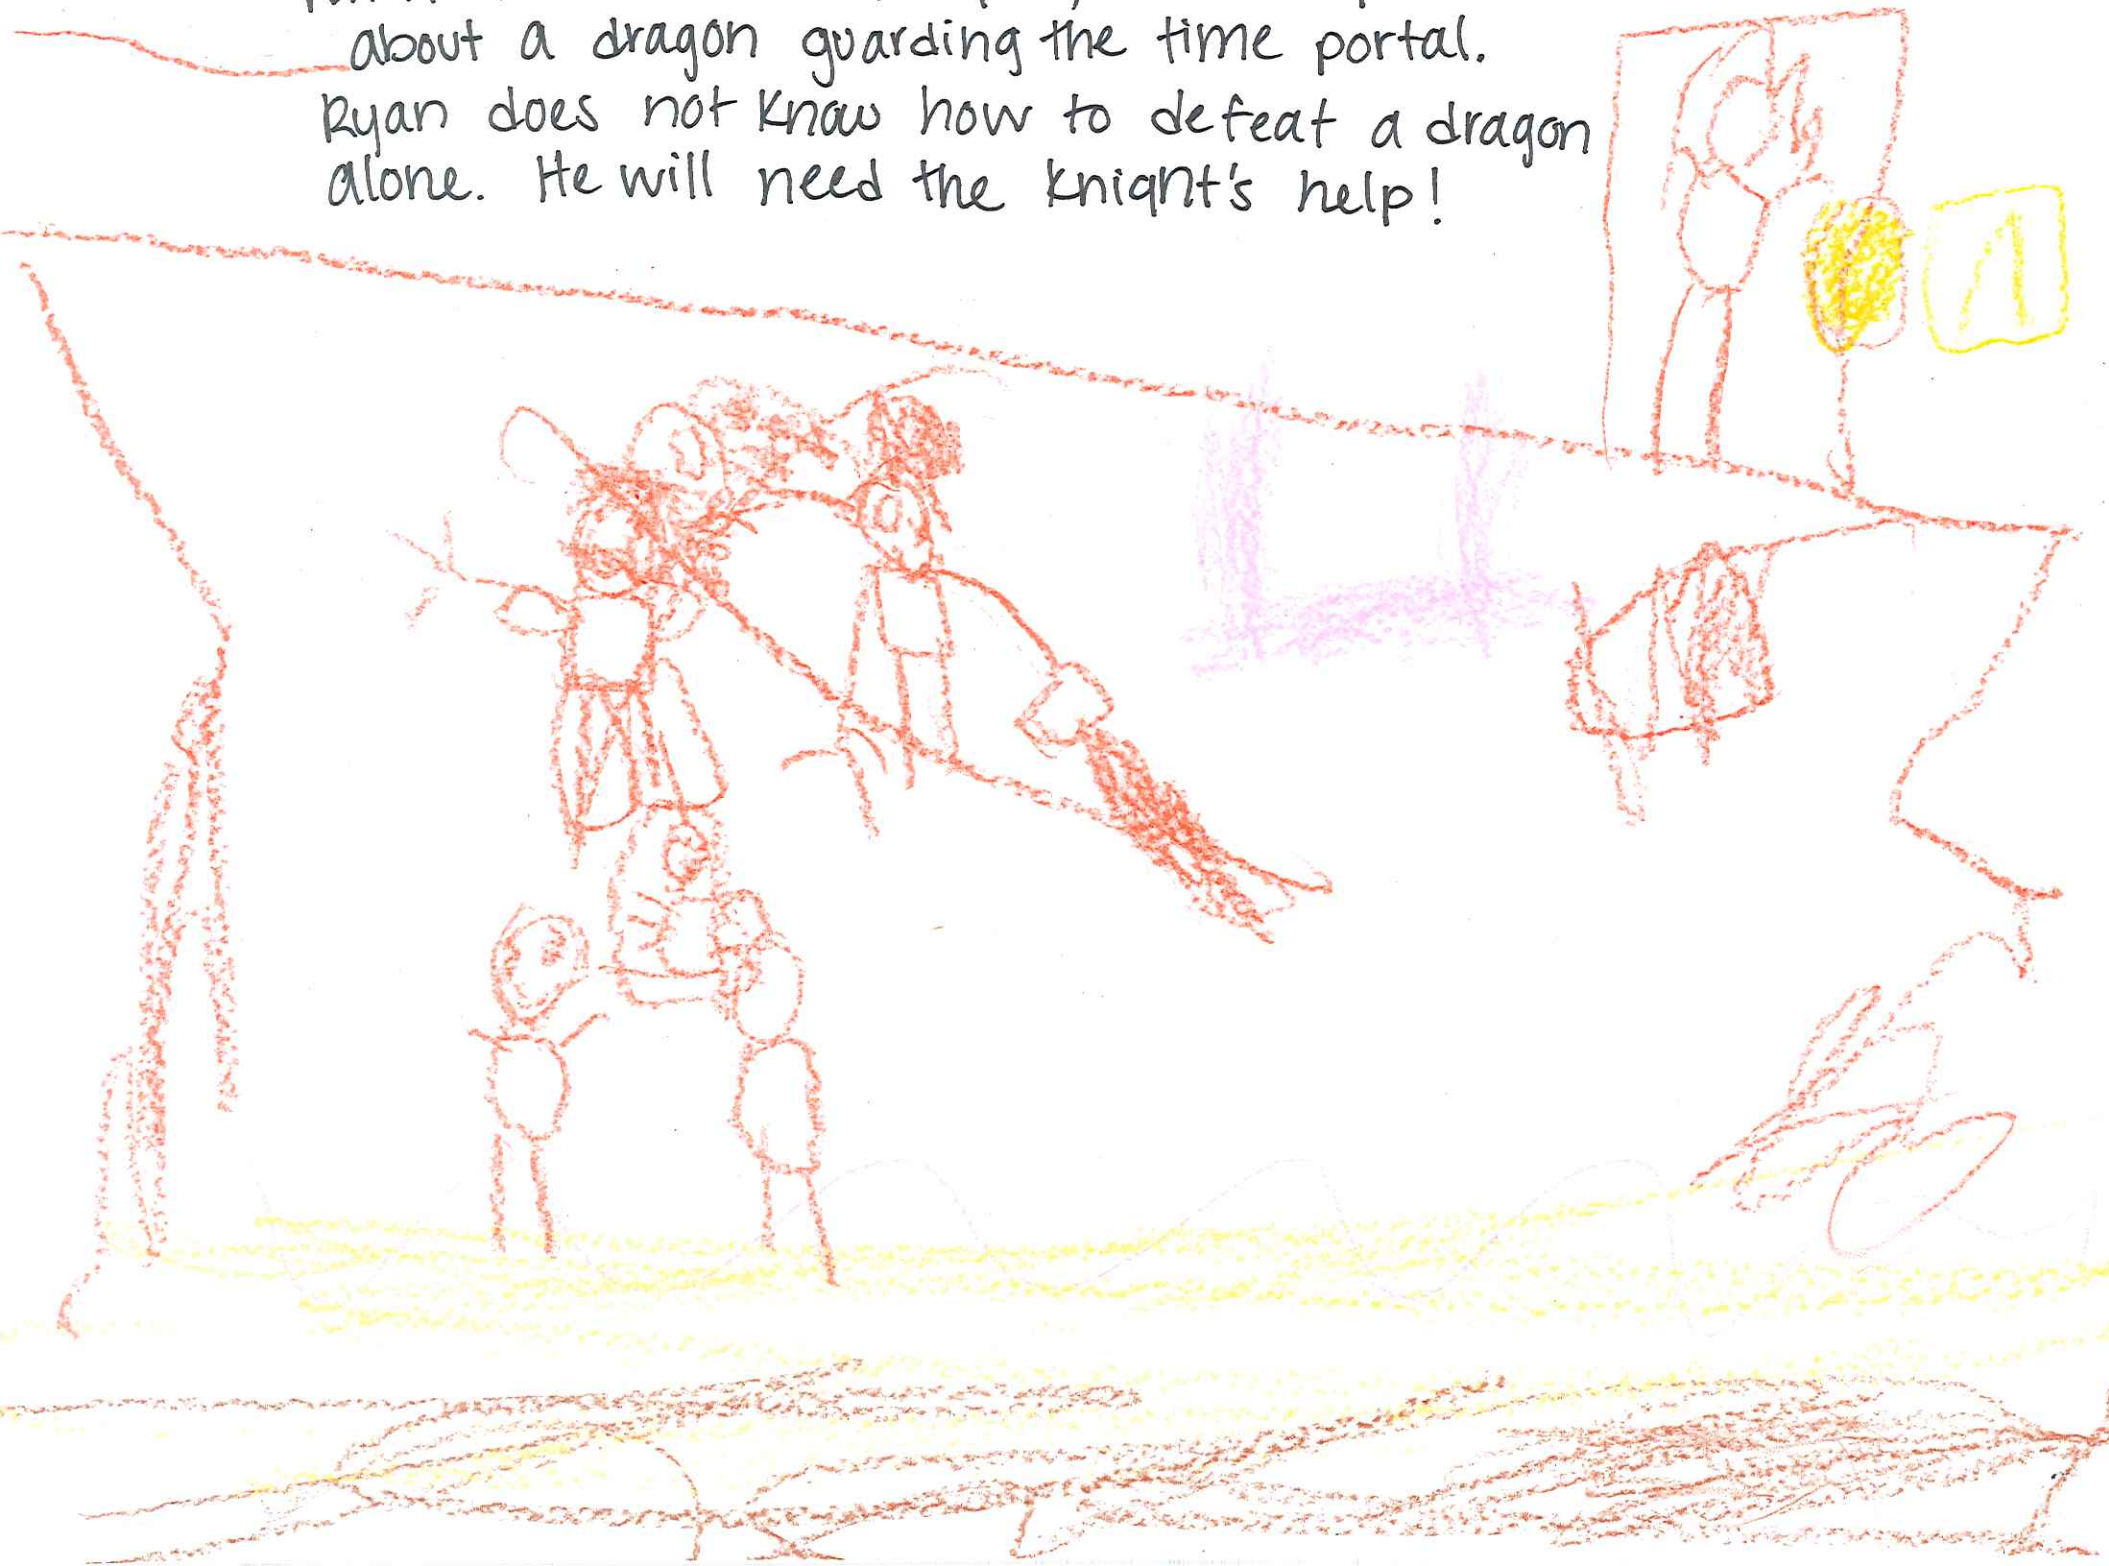

He landed in the medieval times!
He has no idea how to get home.

The people tell him of
a knight who knows how to
get back through the time
portal. He goes looking for the
knight.

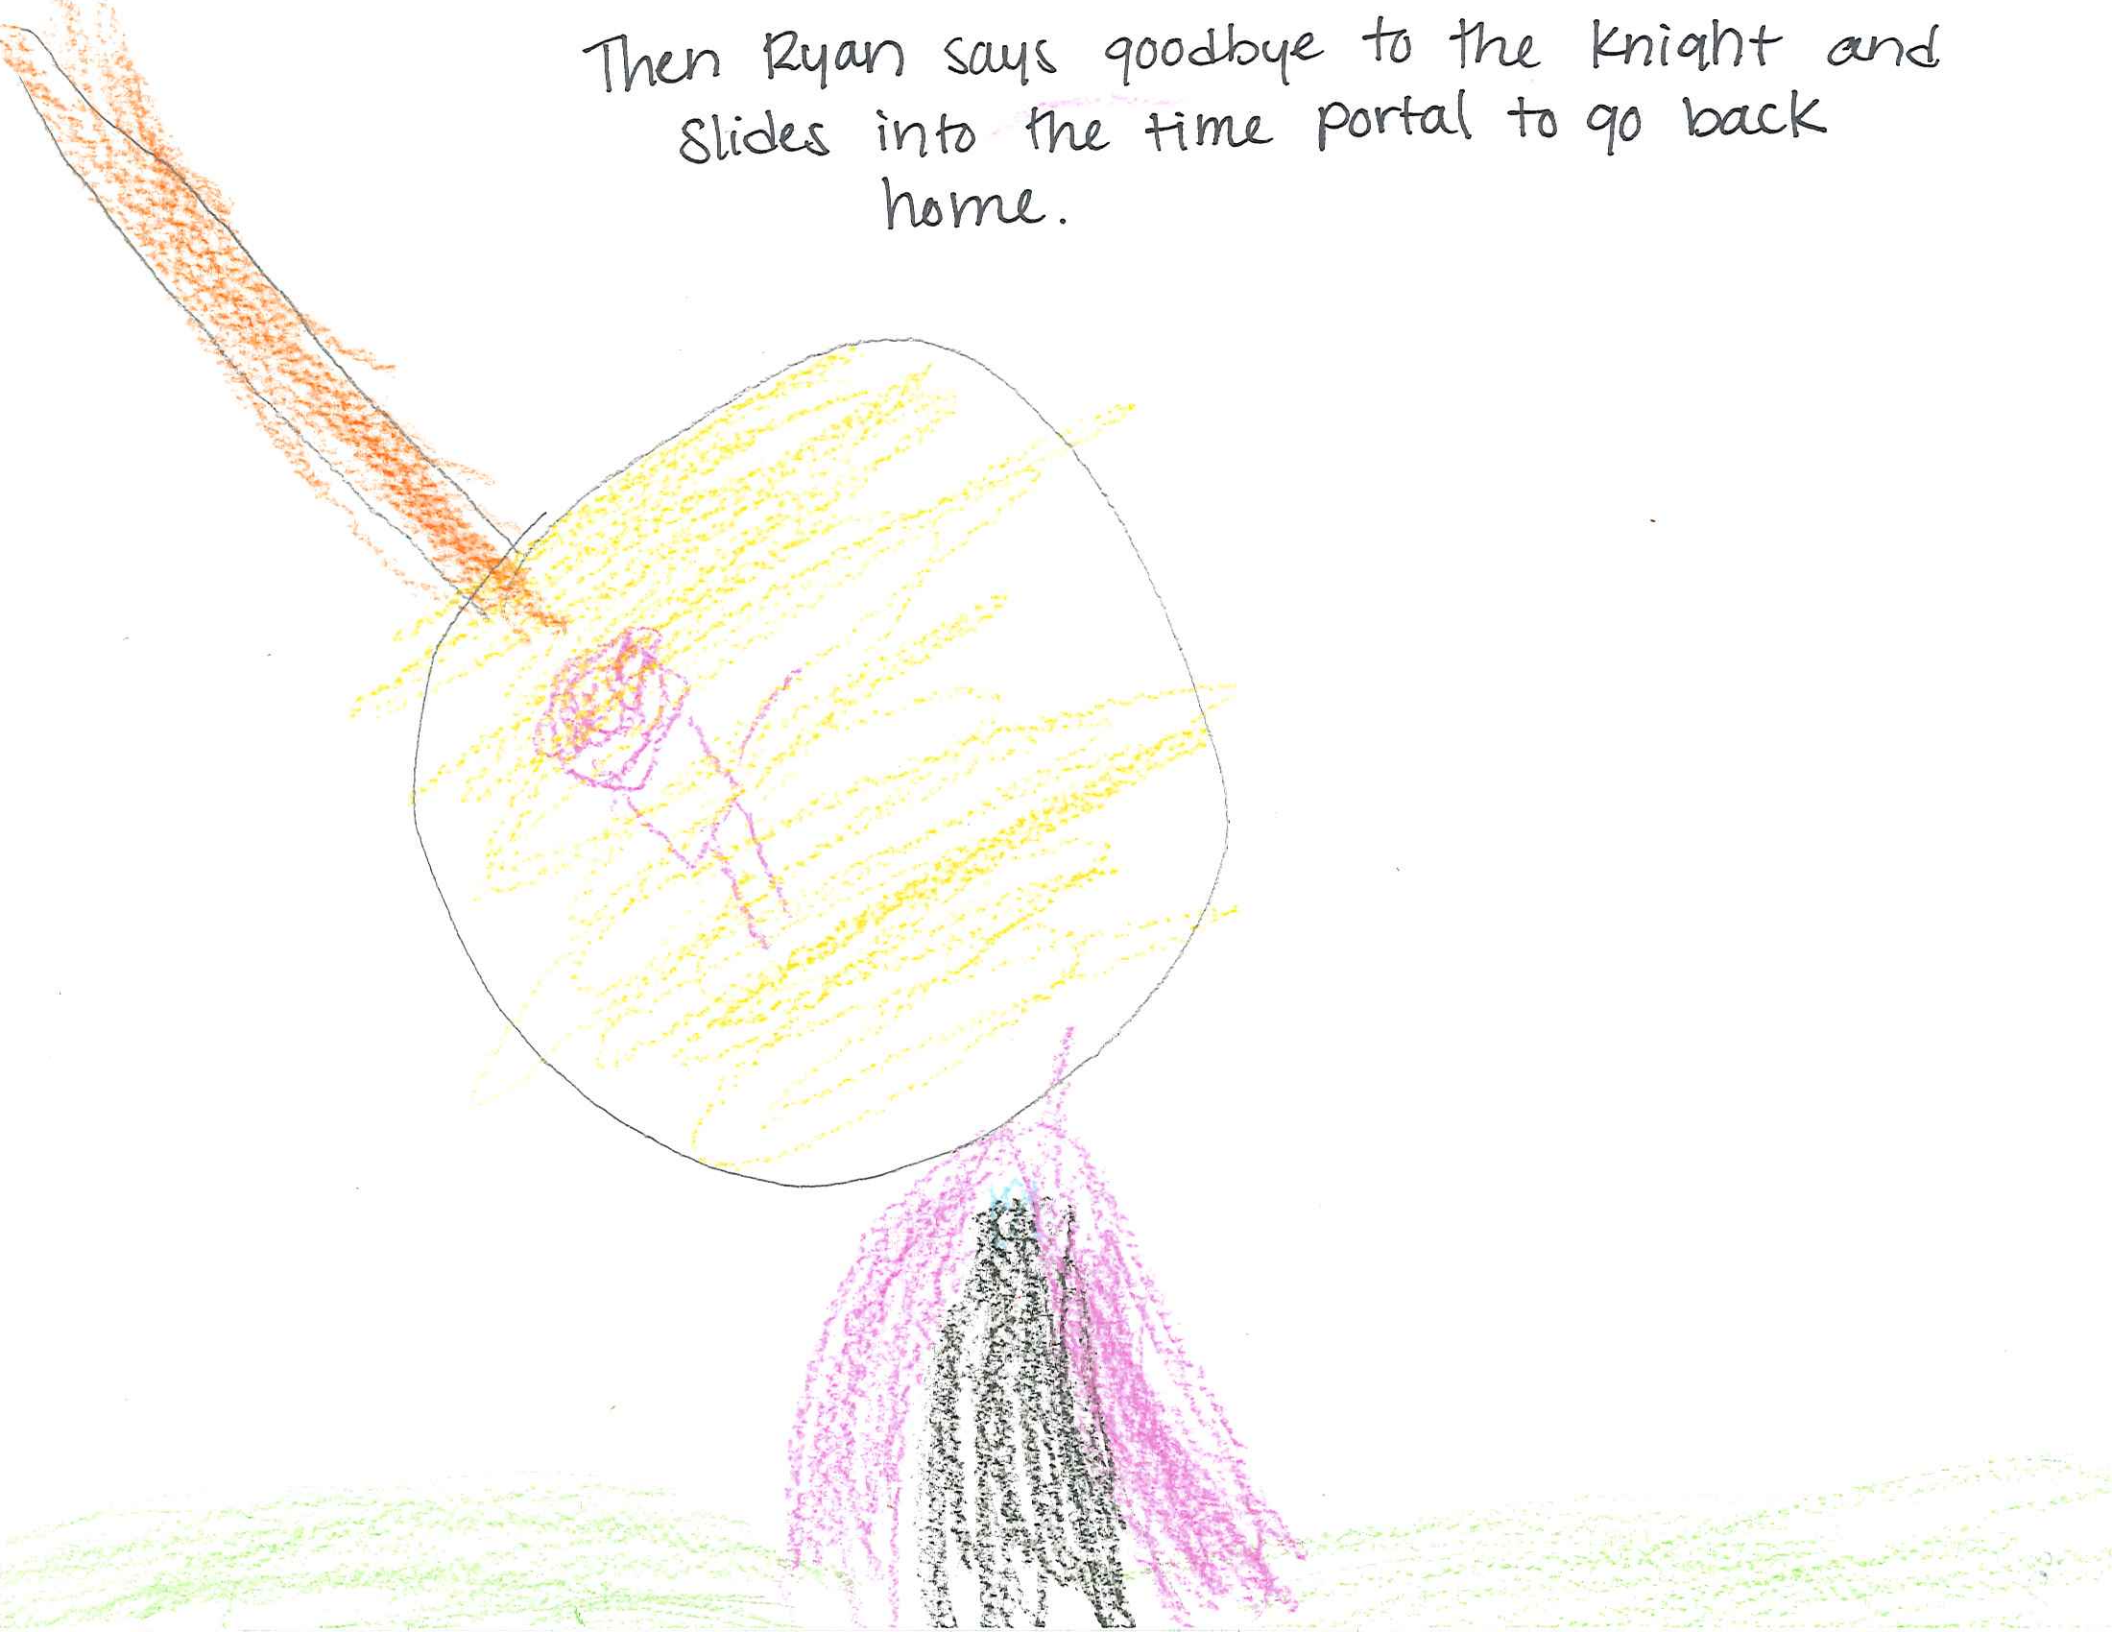

When he finds the knight, the knight tells him
about a dragon guarding the time portal.
Ryan does not know how to defeat a dragon
alone. He will need the knight's help!

They find the dragon in a castle. They work together to defeat the dragon.

Then Ryan says goodbye to the knight and
slides into the time portal to go back
home.

When he gets back he searches for a ninja partner because teamwork is better than working alone.
