Once upon a time there was a hard
working family. They had a mother,
father, sister, and a brother. The family lived
in a house next to their big red barn.

The house was small and light blue with pink shingles. Despite the family being poor, they planted a garden every year. In their garden they planted lettuce, watermelon, tomatoes, and turnips. They paid most attention to their turnips.

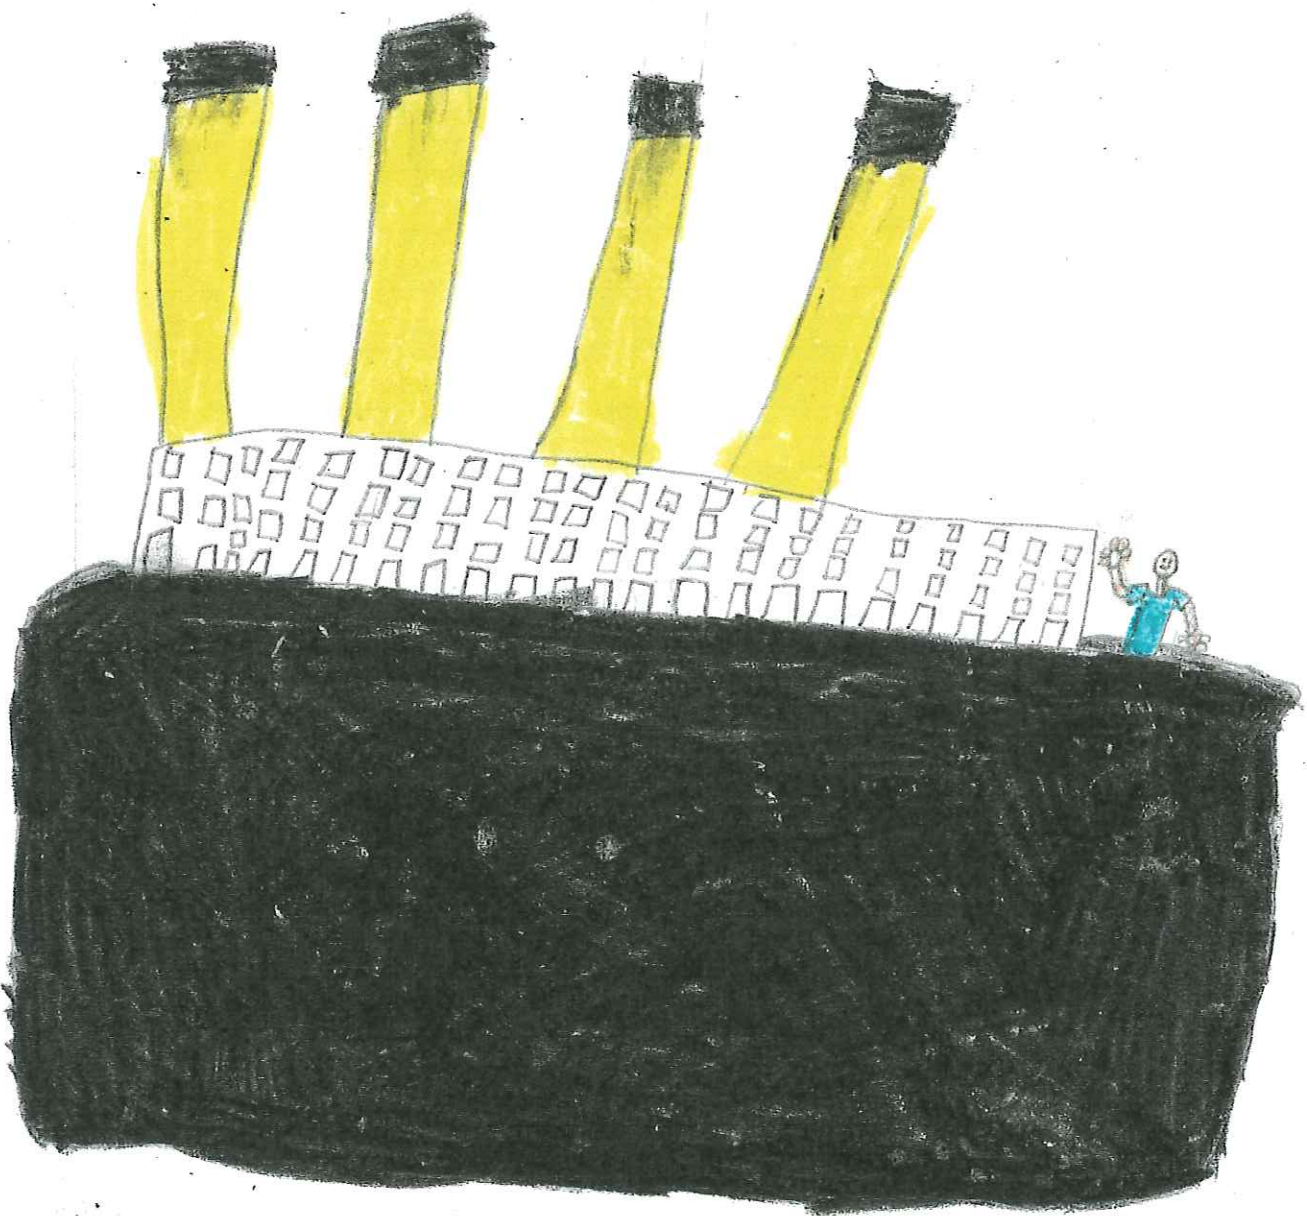

The Bucket family was known as the famous turnip planters. But they did not put fertilizer at all. Fairies made them famous sense they were poor. The fairies made the turnips grow in one day but the Bucket family did not know about the fairies and the magic that the fairies put on the turnips to make the grow very fast.

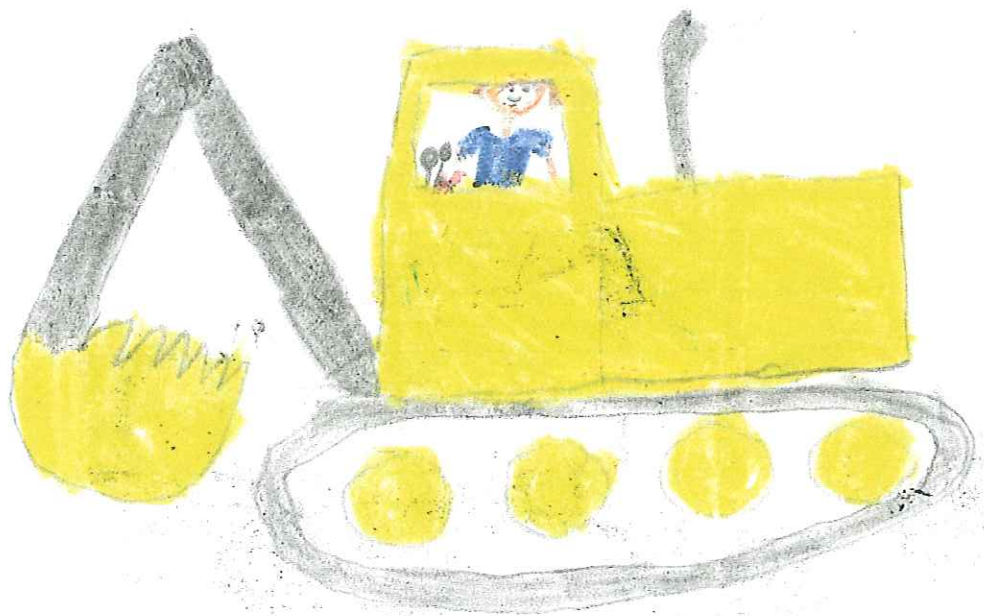

But what the Bucket family didn't know is that the fairies were helping other people grow big plants but then they were late to go to the farm. So they hurried and accidentally put too much magic on that one turnip.

Then one day the Bucket family found a humormous turnip in their garden! They were shocked! Brother said it was as big as the Titanic. Sister did not agree, she said it was cute. Brother was not happy.

The Bucket families dad said
"let's call a dump truck and a
backhoe". The Bucket families mom
said, "that is a good idea".

So When the dump truck and
the backhoe got to the Bucket
families house Mr. Bucket told them
what to do. The backhoe scooped
the humormous turnip out of the
garden and put it in dump truck
and took it to the fair.

The judges at the fair were so surprised at the size of the turnip. They gave the Bucket family 1st place with a blue ribbon. The Bucket family was overjoyed to win their first blue ribbon and the fairies were happy that they secretly helped the Bucket family. The end.
