Tulip was a kind and
cheerful little princess.

One day, her friend
Rose told her about a
new store was giving

Chips for free on the
opening day. Rose said
potato chips taste delicious
and she must try it.

the next morning,
Tulip was excited and

Rushed to the Store With
her friends and got in line
for potato chips.

But by the time it was their
turn all the chips were finished.
Tulip was very sad! Tulip thought

What she could do to get potato
chips. She came up with an idea.
Tulip asked the shopkeeper to

make more chips. The shopkeeper
needed more supplies and help
making chips. Talip and her
friends offered to help. soon
it was a fun event where
people worked together and
made chips.

The King and queen were
happy for Talip setting
an example for other people
to come together to solve
a problem.
