

Kitty Land: The Missing Milks and fishes

By: Ellie

Blueberry Kitty, went to get her favorite milks and fishes at the Kitty Store. When she got there all the milks and fishes were gone. She felt sad that she can't enjoy them. Blueberry Kitty ran into Pink Kitty and told her about the incident. Pink Kitty suggested, "We should tell the Mayor Banana Kitty". Mayor Banana Kitty lived in the Mayor's Manor which was in the center of Kitty Land. Mayor Banana Kitty

said "That's strange, The kitty store always have enough milks and fishes for every kitty. We should carefully investigate and don't worry the other kitties. Tomorrow let's meet at my secret tree house."

They met at the tree house the next day. They shared information and Blueberry Kitty said "I saw Popcorn Kitty drive a truck yesterday on my way to the kitty

Store. Do you think Popcorn Kitty has something to do with it, he's always tricky? "Should we spy on Popcorn Kitty?" asked Pink Kitty.

When they arrived at Popcorn Kitty's house no kitty made a peep. They looked into Popcorn Kitty's window and saw all of milks and fishes were on the dinning table. Popcorn Kitty spotted them outside, he opened the window and said "Come in!"

Popcorn kitty explained. "I'm sorry but please don't tell the other". Mayor Banana Kitty asked "Why did you buy all of the milks and fishes?" "I want to make a new popcorn flavor called Milkyfish popcorn, but haven't been successful," said Popcorn Kitty. Pink Kitty said "It sounds yummy! Can we help?" Mayor Banana Kitty wasn't happy because there was still no milks and fishes at the kitty store. Mayor Banana Kitty said "Popcorn kitty, it's wrong to take

all of milk and fishes. The Kitty Store won't get the fresh milk and fishes until Monday. Popcorn Kitty agreed to return half of the milk and fish. Every kitty decided to help him to make the Milkyfish popcorn. They tried several times and finally succeeded. The Milkyfish popcorn was the most delicious popcorn ever. Every kitty loves it!
