

The Race

By James

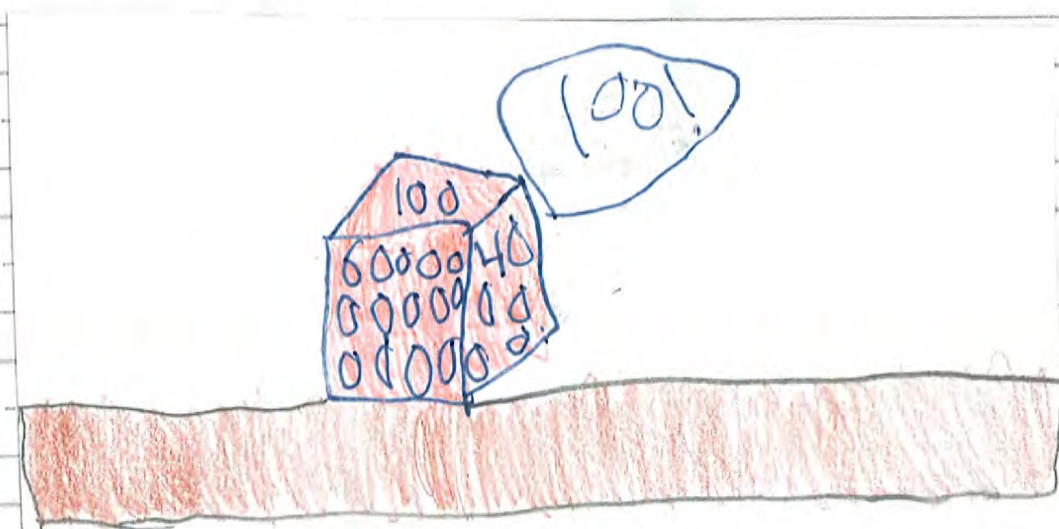

Once upon a time,  
there was a race that  
happens every four years.  
The mayor picks four  
lucky names from a hat.  
The winner gets a  
trophy.

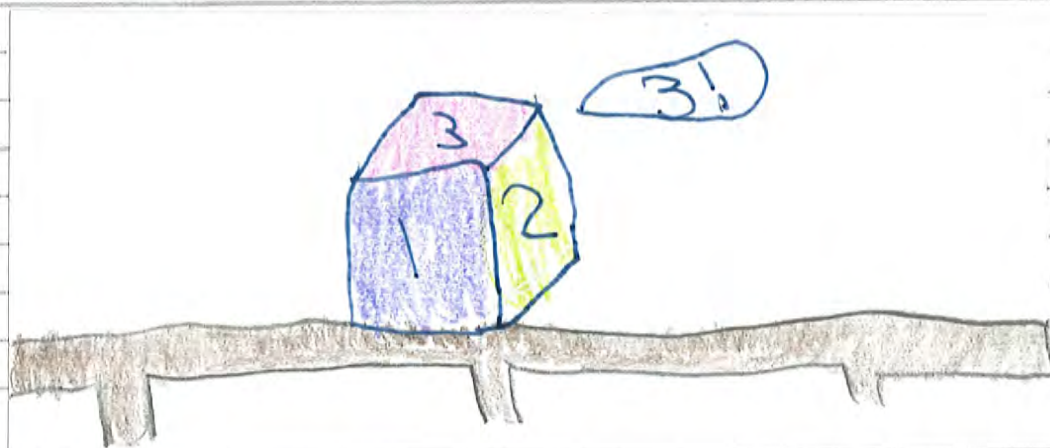

James Daphne Gus Caren

This race the mayor  
picked "Gus, James, Daphne,  
and Caren!" "Yes!" The  
lucky four said. Caren  
asked, "How many laps do  
we run?" "Oh yeah,  
I almost forgot. The  
magic dice says 100!"

Daphne said "that's too much".  
The mayor said "fine, now  
the dice says 3 laps. The  
mayor said "the race will  
start in 32... "wait!" said  
Gus, "can each lap be  
different?" "Yes," the mayor  
said "the dice says  
hopping, racecars, and  
running lap.

In the hopping lap  
they hopped in a bag.  
Gus is in the lead.

Uh-oh, Gus' bag broke.  
Gus is out. Gus cries.

Next is the racecar race.

Vroom vroom, they race!

Daphne is in the lead.

Uh-oh Daphne's tire

popped. Daphne's out.

Daphne cries.

Last is the running race.  
Don't step on the rocks,"  
the mayor said. They  
run, uh-oh Caren  
tripped on a rock. Carens  
out. Caren cries.

James wins! James  
wins the trophy! It's  
full of chocolate! He  
shares to cheer everyone  
up! Everyone is happy!

The End
