

# Infant deaths more common with Coloradans of color

While accounting for less than a third of Colorado's population, people of color suffered more than half of all infant deaths in the state from 2016-2020.

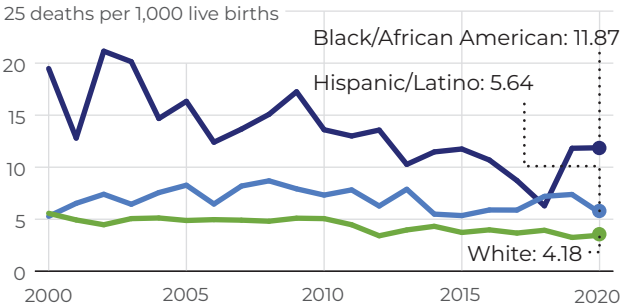

## Breakdown of all infant deaths in Colorado\*

## Total state population breakdown\*\*

## Colorado infant mortality rates, 2000-2020

\* 2016-2020; most recent complete five-year dataset

\*\* American Community Survey (ACS) 5-year estimates, 2016-2020

NOTE: Rates are infant deaths by race/ethnicity of child per 1,000 live births by race/ethnicity of mother; 95% confidence level
