DOCUMENTARY
WED Aug 23 | 7p
There's no shortage of murder, mystery, and mayhem in the Cambridgeshire village of Grantchester — but Detective Geordie Keating (Robson Green) and motorcycle riding vicar Will Davenport (Tom Brittney) are always on the case. Will has disappeared, but with Bonnie about to give birth, Geordie must find him and bring him to his senses before it is too late. (Grantchester on Masterpiece wraps up season 8 with two episodes beginning at 8 and 9pm)

It's time for the season finale as the three remaining cooks go head-to-head to win “The Great American Recipe.” They'll have some surprises along the way in their final chance to wow the judges with a very special dinner. Plus, some surprise guests arrive to help them with their final dishes. In the end, one cook will be named the winner and have one of their winning recipes featured on the cover of The Great American Recipe cookbook.

This five-part series weaves together the personal stories of ordinary men, women and children who were drawn — both willingly and unwillingly — into a conflict that spanned over thirty years. The series mixes extraordinary archive footage and emotionally compelling first-person testimonies to create an intimate, multi-generational portrait of Northern Ireland’s past, present and future with an emphasis on understanding and empathy for all points of view.
1 TUESDAY
7:00 Finding Your Roots "Science Pioneers" Henry Louis Gates, Jr. traces the family trees of Francis Collins, Shirley Ann Jackson and Harold Varmus, three pioneering scientists who've made dramatic contributions to our understanding of the world while knowing little about their own ancestry.
8:00 Southern Storytellers "Episode 3" Some of the South's most influential creators take us to the places that feed their imaginations: author Jesmyn Ward, screenwriter Michael Waldron, poet Natasha Trethewey, and songwriters Justin Moore, Tarriona "Tank" Ball and Thao Nguyen.
9:00 Iconic America: Our Symbols and Stories with David Rubenstein "The Golden Gate Bridge" The Golden Gate Bridge is an engineering marvel that symbolizes America's can-do spirit. Explore if America can continue to execute bold and ambitious infrastructure projects in the 21st century.
10:00 Planet California "Rivers of Gold" California is a land of extremes - tallest, deepest, highest, hottest. But in a rapidly changing and thirsty world, drought, dams and fire pose dire threats to an ecosystem connected by rivers on land, in the air and in the sea.
11:00 Amanpour and Company Christiane Amanpour leads wide-ranging, in-depth conversations with global thought leaders and cultural influencers on the issues and trends impacting the world each day, from politics, business and technology to arts, science and sports.
2 WEDNESDAY
7:00 Animals with Cameras, A Nature Miniseries "Australia" Wildlife cameraman Gordon Buchanan fronts the team helping scientists investigate the lives of some of Australia's most iconic animals. Koalas, fruit bats and kangaroos take the cameras into their secret worlds.
8:00 Human Footprint "The Urban Jungle" In "The Urban Jungle," Shane explores the modern city: an ecosystem built by, for us. He encounters three species thriving in the city, reckons with our complex urban history, and envisions a new and wilder urban future.
9:00 Nova "The Planets: Ice Worlds" In the far reaches of the solar system, Uranus and Neptune dazzle with unexpected rings, supersonic winds and dozens of moons. And NASA's New Horizons gets a stunning up-close view of Pluto before venturing deep into the Kuiper Belt.
10:00 Planet California "Close Encounters" Hollywood may captivate, but in one of the most biologically diverse places on Earth, the real stars of California - a wild and spectacular cast of creatures in the sea and on land, from blue whales to burrowing owls - are ready for their close-up.

NEW DOCUMENTARY
THU Aug 31 | 7p

The film peeks into the lives of Danny and Annaliese, two young farmers in their second year of operation in Boulder County, Colorado. This young couple is one example of many entering the aging farming profession. The film explores the challenges of making it as a farm, supporting a local food system, and changing minds in the long term. We learn about Danny and Annaliese’s backstory, why and how they changed from being vegetarians to livestock farmers, and why they use regenerative farming techniques.
