## THIRD GRADE: 2nd Place "My Yeti Adventure Story" by Jai

Caughlin Ranch Elementary School

Do you like adventure stories? I do! One winter day at six o'clock in the morning the phone rang. "Who would call this early in the morning?" I sleepily wondered. The phone kept ringing so I got up and answered the phone. "Jack!" the person on the phone exclaimed. "How are you doing?" "Good," I said, realizing it was my friend from the Yeti Institute of Education, Technology, and Findings.

After that Bill said that they were gathering together a group of people to try to find the terrifying Yeti and that I was invited. I was scared and thrilled by the mission and started packing my bags. After a few flights I got to the institute. There all my friends and students started crowding me. I was getting claustrophobic from all the people around me. Suddenly Bill came and said that we would have to get our rest. When I got to bed I couldn't sleep well.

The next thing I knew I was walking up a ten thousand foot snowy mountain in the freezing cold Himalayas. I had to skip breakfast and I felt like I was starving. We slowly walked up the enormous mountain, then another one, then another one. I felt really tired and sat down when we were stopping for lunch, when suddenly a big figure loomed in the distance. "Go! Go!" shouted the team leader.

Eventually, we got really close to the figure when so much snow started falling. I couldn't see. I got separated from the team and started running around and crying help because I was scared. Soon the team found me and it stopped snowing, but the figure had gotten away. We searched around that area a bit to try to find if the figure left anything.

We were about to go when I found some white hair. We knew that was good enough when they scanned it at the institute. That was my Yeti adventure. I hope you liked it.
