**KINDERGARTEN: 1st Place**

**"Astro Wonders"**

**by Uriah**

North Star Online School

Meet Astro. He is 6 years old. He loves Kindergarten. He loves to wonder about the world. He wonders in school A LOT.

On Math Monday, Astro was learning about shapes. He began to wonder if numbers go to infinity, do shapes go too? I wonder!

Tuesday was Social Studies day. Astro was learning about Nevada. He began to wonder what a silver mine is like? Is it dark or scary? I wonder!

Wednesdays are Language Arts days. Astro was listening to a story about space. He wondered what being an astronaut is like? How fast is a rocket? How hot is the sun? I wonder!

On Science Thursday, Astro was learning about the ocean. He wondered about jelly fish and the deep sea. Can I reach the ocean floor? Do jelly fish see? How big are whales? I wonder!

Friday is Fun day! Astro wonders what the fun will be. Extra recess on the slides? Cookies? Yum! He will have to wait and keep Wondering!
