"Finn Goes to Taylor"

by Winston

Taylor Elementary School

Hi, I am a black dog named Finn. I live in Winston's house with him. My favorite things to do with Winston are to play with him. I bite Winston a lot because we play and since I don't have hands, I use my teeth.

One day, Winston's mom called us to come inside when we were playing tag. I grabbed a bag and put it on my back and headed outside. I love going in the box with wheels. We also bring Winston's sister Waylynn with us and we headed to school to drop off the kids. I wonder what it would be like to go to school with Winston and Waylynn? So tomorrow I will sneak out of the box with wheels. "Yay!" cried out Finn. "Today I will sneak in the box with wheels and go to school!" Okay I am going in the box with wheels. It's go time!

Wow! We are going really fast and then we stopped and we're at school. So I put on my disguise which was glasses and a coat. I heard the door open so I jumped out of the box with wheels and ran into the building. It is something called school and I found Miss Finley's classroom. I found out what Winston does when he's gone! He learns!!! He learns how to read, he learns how to do math, he also learns how to write!! And since I am in there, his awesome teacher named Miss Finley let me lay next to him in class! I love his teacher so so so much!! And how much I love it here I even might sneak in the box with wheels again.

The End
