# FIRST GRADE: 1st Place

"Maddy Has a Solution"
by Sophie

Coral Academy of Science

Once upon a time, there was a forest and there was a girl named Maddy. Maddy had a wand. She knew lots of magic.

She had a wand, but a bird took it. She did not know what to do at first, but then she had an idea.

Maddy thought to herself, "I should ask for help." She asked a fox. The fox knew where the bird was.

Maddy followed the fox through the forest. They found the bird!

Maddy asked the bird, "Why did you take my wand?" The bird said, "I needed it to build my nest."

Maddy told the bird, "You could've asked before you took it." The bird said, "I will do that next time."

Maddy got her wand back and used her wand to help the bird build its nest.
