STEM Works: Renown Children's Hospital

Everyone at Renown Children's Hospital, from the receptionists at the front desk to the surgeons in the operating room, is dedicated to helping young patients get the treatment they need to be happy and healthy. Diagnosis and treatment can be a complicated process to identify what's wrong and decide how to fix it. Match the terms below to their correct definitions to help make sure everyone gets the care they need!

Pediatric	A person skilled in diagnosing and treating a wide range of eye conditions
Surgeon	A branch of medicine that uses radiation for diagnosis and treatment
Radiology	A branch of medicine involving medical care for infants and children
Biomechanics	Meaning "present at birth", these are conditions that develop in the womb
Orthopedic	The study of living systems, particularly their form and function
Ophthalmic Technician	A highly trained medical professional who performs operations on patients
Congenital Anomaly	A person who is skilled at using x-ray machines and interpreting the results
X-Ray Technician	A branch of medicine specialized in musculoskeletal conditions
