# This is what we do. This is who we are.

## **We care deeply about the communities we serve.**

We take what we do personally. Whether through donations or volunteer time, our company, Foundation and employees give back to causes most important to our customers. We focus our support on the environment, education, workforce development and community wellbeing. We help those in need and provide utility assistance and help Nevadans with food insecurity, homelessness, affordable housing and public safety.

## **We are reliable.**

We prioritize improvements to modernize and upgrade our infrastructure for reliability. We plan for over 1.5 million customers because one thing is always on our minds—being reliable. While we do everything we can to keep rates low, we make investments and improvements to the system for our customers –

this includes rebuilding and upgrading lines, adding new renewable projects and planning for growth.

## **We love saving our customers energy and money.**

We provide reliable, affordable power and offer energy and money-saving tools through PowerShift at no cost to customers.

## **We are leading Nevada to a sustainable energy future.**

It's an exciting time for the energy industry. As we transition to renewable energy, innovative solutions are key to helping us meet our customers' unique energy needs and will help NV Energy meet renewable mandates and goals we are striving to achieve for Nevada.
