BE AWARE. BE PREPARED.

Nevada experienced its warmest winter on record, and many areas saw very little lasting snow—leaving more dry vegetation on the ground than usual. These hotter, drier conditions increase wildfire risk, making awareness and preparedness more important than ever.

At NV Energy, your safety is our number one priority. That's why we work year-round to strengthen our system, reduce fire risk, and protect the communities where we serve, live, and work.

How We Reduce Risk

To protect communities, we may use one or more of the following safety strategies:

■ Fire Season Settings

When fire danger is elevated, power lines in high-risk areas are switched to more sensitive settings. With these settings in place, the line will automatically shut off if something—such as vegetation or debris—comes into contact with it, reducing the likelihood of an ignition.

■ Public Safety Outage Management (PSOM)

A temporary, proactive shutoff during extreme fire risk to reduce the chance of equipment-related ignitions. These are forecasted in advance and customers will receive advance notification.

■ Emergency De-energization

As a last resort, NV Energy may turn off power if an active wildfire is threatening our equipment. This helps reduce the risk of our equipment contributing to or worsening an existing fire. For public safety, these shutoffs must be taken quickly, so customers may not receive advance notice.

How You Can Prepare

These tools are critical in reducing wildfire risk—and being prepared helps everyone stay safe and informed when outages occur.

- Update your contact information and sign up for alerts in MyAccount
- Create or refresh your household emergency kit
- If someone in your home relies on medical equipment, enroll in our Green Cross program at [nvenergy.com/GreenCross](https://www.nvenergy.com/GreenCross)
- Find additional outage preparation tips at [nvenergy.com/outageprep](https://www.nvenergy.com/outageprep)

Wildfire Awareness Month is a reminder that we all play a part in keeping Nevada safe. Thank you for working with us to protect our communities. To learn more about our wildfire safety efforts, visit [nvenergy.com/PowerSafeNV](https://www.nvenergy.com/PowerSafeNV).

This is what we do
The NV Energy logo features a stylized red and white triangle to the left of the text "NV Energy".
